Projects

REAL-TIME DECIBEL METER	11/2024 - 12/2024
Real-time Decibel Meter with Automatic Alert System	
<ul style="list-style-type: none">Developed a live audio capturing system that can detect noise over a certain decibel level and play an audio as response to that noise.The system is made to be used for locations that require noise control, like libraries, schools, medical institutions, etc	

Android app for government schemes

- Developing an android app that acts as a platform to display all different schemes of the Indian Government
- The app will be able to enlighten people about the various schemes provided to the common folk, by using filters based on states and age

Interests

Event Organisation

- Co-organised a multidisciplinary international conference during college, gaining experience in teamwork, logistics, and leadership.

Chess

- Participated in multiple chess tournaments at college and inter-institutional levels, developing strategic thinking and problem-solving skills.

Karate

- Trained in Karate and earned multiple Gold and Silver medals, demonstrating discipline, resilience, and physical fitness.

Leisure Activities

- Enjoy swimming and cycling as leisure pursuits, promoting a healthy and balanced lifestyle.

Language Learning

- Passionate about learning new languages; currently practicing Japanese in my spare time to enhance cognitive and communication skills.

Reading

- Explore a wide range of book genres to improve language proficiency, broaden perspectives, and nurture a love for literature.

Music Appreciation

- Enthusiastically explore various music genres to relax, reflect, and expand cultural awareness.
